Most people are familiar with their Sun sign based on the month and day of birth. The Sun sign answers the question, "What's your sign?" It is the reference point that is employed when we read newspaper and magazine horoscopes. But what about the nine other heavenly bodies that make their influence felt in our lives? These planets were also in a particular sign of the zodiac when you were born. Here is where Astrology really begins to come alive for each individual. This report will take you on a revealing journey as you travel through each interpretation based on your unique month, day, and year of birth. If your birth time was included, then the Rising sign will add yet another dimension to your personal horoscope interpretation. If it is not included because you don't have an accurate time of birth, there is still much useful and insightful personal information that can be gleaned from your report.

This report takes into account the various spiritual and psychological implications, as well as the material plane potentials which are part of your individual life plan. In this case the word potential is used because you have been given a certain amount of free will and the life choices that you make will determine to a large extent the level at which these cosmic energies actually play themselves out. Use this report to find confirmation for what you already feel intuitively and to unlock the door for new life possibilities that you may not have yet considered. This is where the strength and real value of your personal Astrological report is found.

# Chapter 1: The Ascendant

The precise time on the day of your birth determines your particular Ascendant, also known as your Rising Sign. This was the zodiac sign that was rising over the horizon when you were born. In addition to your Sun and Moon Sign, the Rising Sign reveals very important traits that make up a major part of your personality and your individual approach to life. This is usually the impression you like to make before you really get to know someone; it is your outer personality and image.

## *Libra Rising:*

There is a distinct part of your outer personality that expresses itself very much like a Libra. You are charming, diplomatic, prefer cooperation to competition and people know you for your easy-going manner.

Since this was the sign of the zodiac that was rising over the horizon at your time of birth, the principle of Libra--relating to others--will be integrated into almost every area of life in some way.

Venus is your chart ruler. To discover even more about what's a priority for you, and also, the first impression you make on others, read everything in the chapter on Venus.

## *Venus in soft aspect to Asc.:*

Venus here blesses one with a charming personality and a demeanor that others find very appealing. You can use the powers of subtle persuasion and diplomacy to win other people over. Your physical image is important to you and you have a knack for putting together an attractive package to present to the public.

## *Uranus in soft aspect to Asc.:*

You're a character. At least that's the first impression other people get. Even within the confines of a group, you stand out as unique in some way. When all is said and done, your will is the last word. You have an unpredictable streak in you and other people find you exciting because they never know for sure what you'll do or say next.

## Chapter 2: The Sun

The placement of the Sun in your chart will show you how (the sign) and in which area of life (the house) tremendous potential exists for you. Here is where you want to be successful. The Sun cannot be ignored. We must meet and deal with the area of life that the Sun shines on in our chart in order to find ultimate fulfillment. Everything revolves around the Sun. When you master whatever issues the Sun points to, then other areas of life will proceed in a more balanced and satisfactory manner. The Sun also represents: your own will, major goals, the father, men in your life, children, creativity, and the real inner you.

### *Sun in Gemini:*

Clever, social, and communicative, your general approach to life is light hearted. You can be somewhat hard to pin down because you have a wonderful natural curiosity about life. You prefer to know at least a little bit about everything. The restless nature of Gemini is quite conducive to your preference for a wide variety of experiences and mental pursuits. Geminis often won't take a particular subject into great depth, but for you, just having a taste of the smorgasbord that life offers is enough to satisfy.

This is the sign of communication in all of its various forms, whether verbal, written, or just learning for the joy of it. You like sharing what you have learned with others, and the latest news and even gossip has a hard time sneaking by you.

Because of your storehouse of bits of information, you find it easy to understand different viewpoints, and you prefer to agree with someone rather than create conflict.

Taking life too seriously is not appealing to you. "Lighten up" could be your motto and other people sense this, which generally makes you easy to be around and therefore in demand socially.

### *Sun in 8th house:*

Your personal fulfillment is reinforced by experiencing a complete transformation in one or more areas of life. This can stimulate an interest in metaphysical pursuits or the "mysteries of life."

At least one deeply intimate bonding experience with another person will occur. Avoid the temptation to get into control and/or obsessive behavior patterns.

This placement can also put a strong focus on other people's money. The resources of the marriage partner, inheritance, banking and taxes are some of

the various possibilities.

There is a side to you that can be intense, secretive and highly emotional. You don't like losing and you can go to great lengths to manipulate situations so that you get what you want eventually. Giving up just doesn't feel natural to you.

## Chapter 3: The Moon

The Moon in your chart represents the past and points to an area of life (the house) where we function out of instinctive awareness. Often we have a deep emotional need to do the things that the Moon's house placement represents. Whenever insecurities arise and our feelings become involved, we tend to bring the traits (the sign) of our Moon into play. The Moon is like our security blanket. It also represents: the home, females in your life, the mother, nurturing others or being nurtured ourselves, as well as things related to the domestic scene in general.

### *Moon in Virgo:*

You enjoy helping others and you have an emotional need to feel useful. You also require a certain amount of order and routine in your environment.

This is a good placement for those who enjoy crafts, as it fulfills your need to feel like you are doing something constructive while at the same time using your natural talent for attention to details.

You may be health oriented also, but the Moon in Virgo can turn into hypochondria if the tendency to worry gets out of hand.

Your emotional need for perfection can drive people who don't understand it (as well as you) to distraction if it becomes obsessive.

Too much chaos and clutter can actually make you feel depressed. When you're feeling down, hope lies in getting busy doing something creative or useful such as housework, crafts, cooking, or anything else that employs your ability to create order out of confusion.

### *Moon in 11th house:*

You need groups of people and the support that friends and acquaintances offer. At the same time, you have a need to maintain an emotional distance so that your independence is kept intact, as there is a natural inclination toward yielding to the desires of the "group mind." Group associations often lack permanence depending upon how strong your individual desire for freedom is.

Women in general may have some important bearing on the realization of your

hopes and wishes. Whether this influence manifests for good or ill remains to be seen.

Personal life aspirations and lofty ideals are subject to waxing and waning enthusiasm on your part. Try giving yourself little pep talks when you're getting off track.

*Mercury in soft aspect to Moon:*

You're sensitive, responsive, and versatile. People find it easy to share their thoughts with you because you're a good listener.

Any negative emotional states you find yourself immersed in can be countered through the use of thinking and logic. You can mentally talk yourself out of a bad mood. You are someone who can be appealed to through a logical mental approach.

*Venus Conjunct or in hard aspect to Moon:*

Other people find you to be a soft touch. There is a gullible side to you that will toughen up as you mature.

You also like to indulge yourself in immediate gratification and to heck with disagreeable duties; they can wait 'til later.

*Mars in soft aspect to Moon:*

You can have a very quick temper, and your emotions can be highly charged but fleeting. You don't like to hold grudges. You'd rather deal with it at the time and get on with life.

When you're feeling good about yourself, you have a sparkle and vivaciousness that others enjoy being around.

## **Chapter 4: Mercury**

Mercury is the planet of communication. It tells us about how we think and talk. You can gain insight into your mode of gathering, processing and transmitting information from Mercury's placement in your chart. Mercury also represents: transportation, the five senses, youth, reading, and writing.

*Mercury in Taurus:*

You learn by experience and steady application. You prefer dealing with hard facts and whatever you learn you do not easily forget.

You express yourself verbally in a manner that is often slow and measured, and you may have a voice that is attractive to others.

Voluntary change doesn't come naturally to you, and sometimes rigid thought patterns and opinions can be difficult to shift.

*Mercury in 8th house:*

The mind is penetrating and investigative. You have a talent for uncovering secrets but, you're also quite good at keeping them.

Your thinking can undergo a complete change and you can use the power of the mind and the words you speak to change your world. Spoken affirmations carry weight with this placement. Keep them positive.

*Mars Conjunct or in hard aspect to Mercury:*

If you don't make a habit of second guessing yourself, this aspect can boost your intuition if you're willing to trust it.

You are challenged to use the power of communication to enhance, rather than detract from your own best interest.

*Jupiter Conjunct or in hard aspect to Mercury:*

You may experience an inner conflict at times between acting on logic and acting on pure faith.

You express yourself well, but there is sometimes a tendency to be overly verbose due to the fact that you doubt your own ability to get your point across satisfactorily. People do understand more of what you say than you may think they do.

Really grasping what you hear can be challenging for you because your mind often likes to race ahead of the subject at hand.

*Uranus Conjunct or in hard aspect to Mercury:*

Do you ever enjoy seeing the shocked looks you get from others when you blurt out something totally off the wall? You just may, with the planet of rebelliousness meeting your communication planet. Or, it's quite possible that this manifests simply as a lack of tact, which is not necessarily intended on your part.

You can excel at anything where verbal skills and intelligence are necessary, although you may have to develop them.

## **Chapter 5: Venus**

Venus is the planet of relating to others, and thus is associated with love, attraction and socializing. In a male's chart, Venus can provide clues about traits he finds attractive in females. In a female's chart, it reveals something about how she relates to males. Venus is also the planet of material goodies and sensual delights in all of their various forms. Venus also represents: money, harmonious conditions, pleasurable activities, beauty, and the arts.

#### *Venus in Gemini:*

Friendly, social and verbally charming, you love light-hearted conversation and a variety of social contacts. Geminis' love of variety has given this placement a reputation for fickleness. See how a butterfly flits from flower to flower? That's often the Venus in Gemini approach. Your genuine interest in other people makes you seem to be flirtatious to those who don't understand your need for social contact. However, even though this placement may bring numerous relationships, you are quite capable of settling down when you find someone who can match your need for mental stimulation and your enjoyment of the diversity of life.

#### *Venus in 8th house:*

At some point in life you may benefit financially through marriage, an inheritance, or both. Handling other people's resources can be lucrative.

For you, love can be a catalyst for healing and release from old "karma." One or more deeply intimate relationships will be experienced and this will profoundly affect your love nature. You tend to bond with others based on the "chemistry" that is generated.

## **Chapter 6: Mars**

Mars is our planet of action, energy output, motivation, and instinctive biological drives. It shows how and in which area of life you are willing to put forth a lot of effort. Mars' energy is quick, impulsive, and survival oriented. In a male's chart, Mars reveals something about how he relates to females. In a female's chart, Mars can provide clues about the traits she finds attractive in males. Mars also represents: competitive situations, conflicts, accidents, and sexual energies.

#### *Mars in Taurus:*

Determination and endurance are key words that are appropriate for Mars in Taurus. You have an excellent follow-through which comes in very handy for any projects that you may undertake. You are quite industrious especially when your eye is fixed on material and security oriented aims.

Here is a placement where energy and fixed purpose combine. A kind of fanaticism toward an end is not out of the question.

You probably have strong physical drives, and as such you can be quite oriented toward sensation.

This placement supports the craftsman/artisan and other professions where drive and determination combined with an aesthetic sense are necessary.

*Mars in 8th house:*

You're an intense person to say the least, even if this isn't readily apparent on the outside. There's a side to you that is passionate, vigorous and hates to back down when your back is against the wall.

Should you choose, you may delve into the handling of other people's money. Any field where research and investigation are necessary as well as metaphysical subjects are possibilities for you.

Your intuition is strong and psychic potential can be developed. Your ability to survive drastic change is strengthened with Mars here.

*Jupiter Conjunct or in hard aspect to Mars:*

You can be quite impulsive and you may take actions that you later regret because you act first and think later. There is a tendency to be somewhat accident prone. Use caution and develop patience especially when using potentially dangerous machinery.

You have a lot of drive which, ideally, you can learn to control and focus on constructive goals. In this case you can get a lot accomplished.

Sports can provide an excellent way to channel your natural competitive urges and this aspect can give you the edge in athletic pursuits.

## Chapter 7: Jupiter

Jupiter is the planet of expansion and taking things beyond normal limits. It shows us where the universe allows us to indulge ourselves, and often we find that wherever it is in the chart is where things work out in our favor eventually. Some call this luck. Jupiter also represents: faith, ideas about God, abstract

thinking, high ideals, and abundance.

*Jupiter in Taurus:*

Even though you may have a very practical approach toward money and possessions, there is still a part of you that can be quite generous. You have a natural ability to make money and provide for your own financial security. Many of the blessings of life arrive in the form of money and material gifts. Objects of beauty give you great pleasure.

It is wonderful to be able to indulge yourself in material comforts, but there is also the possibility that when the bills begin to roll in from overly extravagant spending they may cancel out any pleasure you received.

This placement expands all of the Taurus traits and can make you very stubborn, sensation oriented, and bound to certain habits and routines. Singing talent or the ability to project your voice may also be present.

*Jupiter in 8th house:*

Other people's money can be fortunate for you. Most likely this will be through an inheritance of some sort, although it's hard to say how much.

This placement indicates that something about your personal belief system and/or your ideas about God will undergo a drastic change.

Sex and emotional expression is important to you and you will have at least one deeply intimate bonding experience with another person.

The world of metaphysics can be beneficial for you. You can combine traditional religious ideas with supernatural concepts.

*Uranus Conjunct or in hard aspect to Jupiter:*

This aspect often describes the law-abiding citizen who wants to do what is right and who can even be a bit dictatorial from time to time. At the same time you often experience an inner urge to break free from orthodox viewpoints and to question the laws of the land. This is your dilemma. You can go overboard in either direction. Can you move ahead and admit you don't have all the answers? Can you break with old traditions and still not break the law? If you can find this exciting, you're ahead of the game.

## **Chapter 8: Saturn**

Saturn is our planet of restriction and discipline. It shows us where we may feel inadequate in some way, and thus we take this area of life very seriously because

we want to perfect ourselves. Saturn also represents: life lessons to be learned, trials and tests, a strong sense of duty, and bringing ideas into material form.

*Saturn in Cancer:*

You can be quite ambitious where personal security issues are at stake. Your upbringing might have been marked by a sense of melancholy and perhaps disappointments. Even though your parents cared for you, you may have still felt lonely and insecure. Defensiveness and inhibited emotional responses can create their own self fulfilling prophecies. As an adult you are now free to rewrite the script where your home life is concerned. Should you choose to establish your own family life, you will take the responsibility very seriously. You may have to learn that your own personal space can be a haven where happiness and optimism prevail.

Reminder: work on boosting up the importance of your own opinion about yourself rather than holding yourself back because of a need for approval from others, especially your family. Repressed emotions will manifest as stomach problems. Learn some techniques for healthy emotional release.

*Saturn in 10th house:*

This is a lifetime for you to learn to persevere through obstacles in order to attain career goals. The more that you are willing to accept responsibility for yourself and others, the more the universe will support your ambitions.

It's important to integrate mercy, humility and integrity into the achievement of goals with Saturn here.

You'll probably be required to contend with the heavy hand of authority figures until you learn to confront them and find out that you can survive after all.

*Neptune Conjunct or in hard aspect to Saturn:*

You will be challenged to resolve conflicting urges: to find solid existence within the material sphere versus

escaping reality and finding a more ideal life experience. The "real" world sometimes becomes too much to bear and a part of you is strongly attracted to those who claim to hold the true way to enlightenment and inner peace. The problem is, you tend to have many doubts about that which is not readily apparent via the five senses.

The positive side of this aspect is that it instills an ability to take that which can be imagined and bring it into solid form. Art, music, and other creative endeavors can provide a satisfactory means for rising above the crassness of everyday existence and entering a more utopian environment, even if you must create it yourself.

It is imperative that you abolish irrational doubts and fears. Do whatever it takes to cultivate confidence, faith and perseverance. Avoid alcohol, drugs and

anything else that can turn out to be a negative escape route.

## Chapter 9: Uranus

Uranus is a planet of unexpected change and unpredictable events. It tells us something about where we have unusual ideas and how we want to express our own unique individuality. Uranus also represents: rebelliousness, sudden awakenings, invention, progress, genius, anything "New Age," and humanitarian efforts.

### *Uranus in Aquarius:*

Uranus was in the sign of Aquarius for approximately seven years. This means that you are part of a large group of people who will share many of the same fundamental characteristics such as the ability to be very independent, progressive and group oriented. Uranus in Aquarius people are highly inventive, take part in various humanitarian efforts and will become pioneers for many breakthroughs with regard to societal issues.

When you read your individual house placement for Uranus, you will be able to see where these traits will express themselves on a more personal basis.

### *Uranus in 4th house:*

You can be a genius when it comes to being courageous enough to march to the beat of a different drummer. Your upbringing somehow encouraged this approach. Perhaps there were many changes of residence. If you struggled during your childhood because either you or your family circumstances didn't fit the norm, this can now be utilized to your advantage.

The world needs more free thinkers. Your life will not be boring!

### *Uranus is Retrograde*

You can be a real character inside. Few people get this impression right away. You'd rather play the role of conformist until you feel comfortable enough to let your hair down. Then everyone is either shocked or pleasantly surprised depending on whom you hang out with.

## Chapter 10: Neptune

Neptune is a planet that dissolves hard and fast boundaries. It is where we don't always see things as they really are, mostly because we would rather view the world through rose-colored glasses.

With Neptune, anything becomes a possibility, especially that which we can imagine. Neptune also represents: tuning into other planes of reality, the spiritual dimensions, cosmic consciousness, movies, music, and inspired creativity.

*Neptune in Leo:*

Because Neptune stays in the same sign about fourteen years, there are many other people who will experience the same things that this placement brings to varying degrees. Some of these include: a very creative imagination, a desire to vicariously escape reality through movies and the theater as well as, a natural ability to create drama.

Your house position will show where Neptune affects your life on an individual basis.

*Neptune in 10th house:*

You'll experience career confusion at some point in life. You may have some doubts about your ability to handle heavy responsibilities and this placement can water down the drive for success, at least by traditional standards. Other chart factors can modify this tendency.

You may be attracted to a career in the arts. Whatever you choose to do, make sure that you present a clear picture of yourself and your abilities to superiors.

In case your relationship with Dad was less than ideal, do yourself a favor by forgiving and moving on.

## **Chapter 11: Pluto**

Pluto is a planet that brings with it transformation. Something about the area of life that it points to will undergo a complete change. Significant lifestyle changes can happen whenever Pluto is involved. Deep, complex issues will be brought to light eventually. It is where conditions can swing from one extreme to the other. It's all or nothing.

Pluto also represents: psychological probing, keeping secrets or bringing them to light, power and control issues, obsessions, healing and purification.

### *Pluto in Cancer:*

Pluto is the slowest moving planet, and thus is recognized as exerting a generational influence as it moves through each zodiac sign.

With Pluto in Cancer, you're part of the generation that can experience radical changes in its approach to home and family, the role of women and food production.

On a personal level, those with Pluto in Cancer tend to be patriotic, family oriented, intuitive and they have a highly developed sense of social trends.

Read the house placement for Pluto in your chart. It shows you an area of life where this planet has a more personal influence.

### *Pluto in 9th house:*

Anything connected to long distance travel or foreign people can become the catalyst for a major lifestyle change.

Your personal belief system, especially that which encompasses either philosophical and religious ideas, will be transformed completely. This is an area of life that you have strong feelings about. Whatever your beliefs are, you tend to hang onto them until the bitter end. However, once you decide to change your thinking on a particular issue, you rarely question the decision.

## **Chapter 12: Elements, the North Node, and the Midheaven**

In this section of the report we interpret the following astrological influences: the Moon's North Node, the MC (the 10th house cusp or Midheaven) and also a preponderance of an astrological element. A "preponderance" occurs when 4 or more planets or the Ascendant is in that element: fire, earth, air, or water. Many people do not have a heavy emphasis of a particular element so not everyone will have an interpretation of an element emphasis.

If the individual chart has aspects to the MC, these will reveal certain career options and potentials for your consideration.

The North Node is an important pointer along the pathway of life. You'll have to be willing to stretch yourself and move away from familiar patterns in order to meet the challenge of the North Node. Great rewards will be reaped in the form of personal growth and reaching your potential goals. The North Node sign will suggest an approach to the area of life represented by its house position.

### *North Node in Capricorn:*

Incorporating the following traits into your life will make it easier in the long run to attain goals.

The best way to describe this principle is to imagine a bird having to leave its nest for the first time. It is extremely challenging, but it's the only way to really learn to fly.

Commitment, perseverance and the steady rise toward some kind of solid achievement are encouraged. Learn to keep going when the going gets tough. Lay solid foundations for your goals.

You can focus your energies without waste and efficiency can become your key to success. Keep your eye on the target.

Certain life events will show you the value of taking responsibility for other people, especially without being asked. Successful outcomes are reinforced by an unwavering sense of duty toward your obligations.

*North Node in 3rd house:*

The universe is encouraging you to play up the aforementioned traits in these areas of life.

Consider the following: allow yourself room for lots of new learning experiences.

Play up anything that relates to the communication of your ideas. Gather and share information as a continuous process of learning. Become an integral part of your immediate community and the neighborhood you live in. Get yourself out and about.

Enjoy some new scenery by car, bus, train, bicycle or whatever appeals to you.

Stay in touch with and honor the relationship you have with relatives, such as aunts, uncles, siblings, cousins, etc.

*MC in soft aspect to Mercury:*

The boss wants to hear what you have to say. You're lucky because you can get those in positions of authority to listen to your ideas. Communication skills will support your career ambitions.

Variety is the key to your career, either a variety of careers, or perhaps a medley of duties to perform within a single career. Reporter, writer, accountant, educator, researcher, scientist, salesperson. Wherever the transmission of information is necessary, therein lies a career possibility for you.

*MC in soft aspect to Jupiter:*

When it comes to your career, you have high ambitions. The universe is handing you a bit of pure luck in this department. Your ethics are usually honorable and you have a somewhat conservative outlook toward upholding traditional codes of behavior.

Career choices may include teaching, especially at higher levels, law, spiritual counseling, publishing, or working in the travel industry, as a librarian, or in sports related fields.

*MC Conjunct or in hard aspect to Saturn:*

You can lead people because you have an aura of authority and responsibility that others pick up on and your advice is often sought out by those who need what they perceive to be a reliable source of input.

Saturn aspecting your career cusp demands a kind of perfection and those who have it are often successful after deciding to persevere no matter what, through trying times and obstacles.

Suitable career options may include: politician, government worker, manager, accountant, corporate executive, construction and building worker, chiropractor, doctor, or dentist. Wherever precision combines with form, or reliable leadership qualities can be brought into play, you have a career possibility.

*Four or more Earth Signs*

Stable and grounded, you will learn all about how to bring what you dream about into practical reality. Manifestation is the key here. Develop a habit of finishing whatever you start. Enjoy and appreciate the bounty that the earth offers.

You like feeling useful and you can develop a real talent for solid accomplishment in life. People admire your willingness to take responsibility for getting things done.

*Four or more Air Signs*

Logical and analytical, you will learn all about using the powers of the mind. You respect mental accomplishment in yourself and others, and you may end up being considered an intellectual by your peers.

If something doesn't make sense, you find it well nigh impossible to throw yourself wholeheartedly into it. Emotional content carries little weight in your important decision making processes.

## **Chapter 13: House Rulerships**

This chapter deals with an Astrological technique known as House Rulers. The "houses" of the horoscope deal primarily with your earth plane experiences. As such, the tone of these interpretations may appear to be more "predictive" in nature. Not all statements will apply absolutely to your experience. Here we are exploring some of the various options that may exist in your chart based on the links between these twelve major areas of life, the Houses of the Horoscope.

#### *Ruler of 1st house in 8th:*

You may have a lot of curiosity about the so-called mysteries of life such as occult practices and other metaphysical studies. You can develop your psychic abilities or perhaps you are more drawn to the healing potential found in the eighth house.

You'll likely have an important experience that transforms your life approach in a major way. Whatever it is, you'll emerge more evolved at a very deep level of your being.

Other people's resources, such as a spouse's money, or an inheritance, could play a significant role in your life somehow.

#### *Ruler of 2nd house in 9th:*

You may place high value on higher education, the life enrichment that travel brings, or perhaps even religious and spiritual concerns. Furthermore, you probably don't mind spending your money on these kinds of pursuits because you feel it's cash well spent.

There is a strong potential link between your earned income, and making some sort of overseas connections. Running a successful import/export business is one example.

Consider augmenting your inherited talents with some kind of higher education or specialized training.

#### *Ruler of 3rd house in 8th:*

Your mind is tuned into the psychic plane and you can develop these abilities if you choose. Your thinking, ideas and the way you communicate may go through a drastic change at some point in life.

Your thinking and communications can be very intense and a childhood experience may have had a strong influence on your mind.

This astrological influence may indicate that a sibling or near relative may leave you a legacy of some kind though it's difficult to pinpoint what or how much.

#### *Ruler of 4th house in 10th:*

Your mother was a strong authority figure, or that could just have been the impression you got as a child.

Your security needs are fulfilled through recognition of your achievements. Your career may take place out of your home. It's possible that real estate or property matters are linked to your main career.

You may find that you have very little private life and that you have certain responsibilities that force you into public recognition whether you desire that or not.

*Ruler of 5th house in 4th:*

Love and love affairs may be more fulfilling later in life.

Investments and speculation may be successfully applied to real estate and property matters.

Your children or children in general feel comfortable in your home. Your children may become like your "parents" later in life.

Your creative ideas are often expressed in your home through decorating, cooking, etc.

*Ruler of 6th house in 10th:*

You may receive public recognition for the work you do, which could represent your highest attainment. In other words you can take a rather mundane job and create a main profession out of it that earns you some recognition.

You are willing to work diligently towards your career aims and your personal work ethic could have been stimulated by your father's influence on you in some regard. When it comes to work, you would rather be your own boss or at least in a position of authority.

*Ruler of 7th house in 8th:*

Other people will support your goals either financially or by lending moral support. You can counsel other people regarding their finances.

Your attitude towards marriage may undergo a change and a partner can represent a total change of lifestyle for you.

You may marry based on an overwhelming sexual attraction to someone. You could actually form a deep intimate bond with someone who feels like a soulmate. You may have to resist the tendency to become obsessed with a particular relationship and allow yourself to move on when the time comes.

*Ruler of 8th house in 8th:*

You have an intense interest in sexual matters because sex represents a deeply intimate bonding experience for you. You might be someone who wants to control your partner's money or you'd be good at handling the resources of other people.

Other people's money in the form of inheritance or investments can be utilized to create a total lifestyle change for you.

You may be intensely interested in anything metaphysical and you can learn to manipulate the forces of nature, otherwise known as working "magic."

*Ruler of 9th house in 8th:*

You want to keep expanding your ability to bond deeply with another person.

Your life philosophy or your spiritual beliefs will go through a major transformation at some point in life. Your philosophy on life may be associated with metaphysical practices.

You could experience spiritual or other supernatural occurrences while you are in the dream state.

*Ruler of 10th house in 11th:*

Your career may be connected to an organization with a common cause, such as humanitarian efforts, wide-scale social change, etc. It may also involve your friends or large groups of people.
