Introduction

Your animals can be your best friends in life. Just like us, they also have their unique personalities. We may not always know their exact time of birth but we can still look at the chart for the day of birth and determine an incredible amount of information. If the exact time is unavailable a Sun sign chart will be used as the basis for the chart. We can benefit by knowing where our pets' full potential might be met. And like our human friends there may also be difficult areas of their personalities, which we must learn to accept or correct. Not all dogs are suited for agility or obedience. Some will do better at guarding their masters; others might behave well in conformation. By understanding the potential of our dogs we seek ways to improve what already exists and accept things that are sometimes unchangeable or a challenge.

There are 4 basic elements that make up a chart; they are earth, water, air and fire. If Axle Rose has 4 or more planets in one of these elements he is considered to have more than average. By giving a weight or number to these planets we can determine if the chart has tendencies that would be influenced by being overweighted in that particular element. The Ascendant,

Midheaven and planets on the angles are also given a number, which is included in determining the makeup of a chart.

This birth chart interpretation is based on the positions of the planets at the time of your birth. For the benefit of students of astrology, these positions, along with other technical information, are listed below:

Uranus

Uranus, the planet of change and excitement, remains in a sign for approximately 7 years. For this reason it is considered one of the generational planets, affecting large groups of dogs born during the period. Uranus shows us where individualism is strongest. Genius abilities can be evident with the right training. Independence is also strongest here. Change in this area can be accomplished only by communicating on a different level of understanding, for example intuition, natural forces, habit, or other unconventional and inexplicable methods. Information is processed with lightning speed showing a higher intelligence at work.

Uranus in Aries:

Quick and sudden movements can be observed in Axle Rose that remind you of lightning. He excels at agility, lure chasing and racing of any kind. Keep this electric bolt of energy on a long leash. Off in a quick second before you can react, Axle Rose may need obedience to teach him the lesson of restraint. This might save a shoulder or back when he suddenly sees a squirrel or other prey.

Uranus in the 1st house:

With Uranus placed here Axle Rose can be seen as one odd bird. He is often different and unusual, which may be what got your initial attention when deciding to bring him home. You may have come upon Axle Rose quite suddenly in your travels and decided right there he was the one for you. Often taller than most animals, Axle Rose may also have a very large head. That's where he keeps all that extra brainpower he continues to impress you with. The smartest animal in the group, Axle Rose becomes bored quite easily with ordinary teaching methods. He is a quick learner although a bit stubborn when it comes to change.

the ringleader in the group of dogs he surrounds himself with. Inventive in how he approaches play time. Axle Rose can come to you with his next idea of fun, often planning the itinerary before you are awake.

Uranus Square Mars:

Axle Rose zigs when he is supposed to zag. The information he receives is sometimes seen in reverse therefore making the response just the opposite. Energy can be used unwisely and lead to exhaustion. Allow him rest periods so that energy is not lost.

Uranus Square Pluto:

Obedience training is necessary with this rebel. Axle Rose will always try to push you to your limit and will get attention even if it means engaging in bad behavior to do so. He is king of his domain and will even give you a difficult time if you don't show him the rules early. Don't let him buck authority and cause you problems. Set the guidelines early and stick to them by being assertive and consistent in your training.

Neptune

Neptune gives you a view into your dog's soul. It shows us the mystical magical side to him that makes him tick. What is Axle Rose's soul purpose in life? Is it to belong to you or does he have a greater mission? The house that Neptune is found in is where Axle Rose will sacrifice all to obtain a higher position in your eyes. Neptune takes about 14 years to complete its cycle through one sign. Many generations of dogs will have Neptune in the same sign therefore house placement will be more important, with emphasis on the activities of the house.

Neptune in Pisces:

Axle Rose's perception is far beyond your or others' capacity. Seeing right down to your soul, he doesn't have to second guess. He knows you better than you do. Axle Rose feels everything you do and probably more so. Although he does not internalize it the same way you do, Axle Rose can be seen to cry when you do. No communication is necessary; Axle Rose comes with his own language.

Neptune in the 12th house:

Axle Rose is tuned in to another place that may seem foreign to you. A loner by nature, Axle Rose is often found dreaming away the hours in an out of the way location. Perceptive of people and situations beyond belief. Axle Rose reads your mind and can filter this into useful information that allows him to please you in many ways. Axle Rose can be seen helping by visits to hospitals or other places where the sick or disabled are confined.

Neptune Square Sun:

Axle Rose never gives up hope no matter how many disappointments there were in the past.

Axle Rose lives life in the real world for he feels that this is the only chance he has. Satisfied with the little things, Axle Rose never thinks to ask for more. A dry bed and place to lie is all he asks for. Any extra crumbs you throw his way will be appreciated as if they were gold. Show Axle Rose your equally devoted love and you've got one loyal friend for life.

Neptune Trine Venus:

If looks could kill Axle Rose would surely be a slayer. The laid back assured way that Axle Rose presents this is part of the appeal. Not overly energetic, Axle Rose would prefer you come to him with treats. He know you can't resist and if he looks cute enough you'll eventually come through.

Neptune Sextile Mars:

Axle Rose will not be happy unless he visits the water daily. Keep on a routine exercise program that includes swimming. Axle Rose may even enjoy an occasional boating excursion and can be seen helping you fish. Just keep those fishing lures out of his way or sudden movements could mean problems for all. It may be hard keeping Axle Rose in the boat so get doggy safety floats.

Pluto

Pluto in Axle Rose's chart shows where he has the greatest potential. Through instruction and sometimes change he can achieve mastery of any skill you teach him. Instinctively Axle Rose knows, as if from a prior lifetime, exactly how to do things, even if he was never taught before. Never having experienced a specific activity before and without prior knowledge, Axle Rose can be an expert at this activity expressed by the house in which Pluto is located.

Pluto in Capricorn:

His supply never ends; Axle Rose can provide you with many delights. Axle Rose's love of family is widely seen. He takes extra care of the elderly, animals as well. Since his previous home or owner may have been less than adequate, Axle Rose now shows appreciation for any little praise or treat that you provide for him.

Pluto in the 11th house:

The ringleader in the group. There is no doubt who the boss is. Axle Rose will have many followers and he controls friends by showing them his way of doing things. Try not to let Axle Rose overpower other, smaller dogs in the group.

Pluto Conjunct Mars:

There is no question that Axle Rose is alpha dog in the family. Obedience training should be started early so that he learns that this does not include you. Submission does not come easily and he may test you frequently when it comes to deciding who's boss. Use caution upon introducing other animals to the household. The pecking order will need to be determined right from the start. Always keep Axle Rose on a short leash when around other dogs. He may not start a fight but he surely will finish one.

Pluto Sextile Saturn:

All work and no play makes one boring day for Axle Rose. Break up the monotony with a change of scenery. Take him to puppy and obedience classes regularly. Socialization for Axle Rose is important and he is content knowing he is alpha dog. Axle Rose has ways of maintaining that position that you are unaware of; it could be just a look or body language but you can bet all other dogs are aware of this.

Pluto Square Uranus:

Axle Rose can lose his temper quite easily. With proper obedience training early this problem can be eliminated. Use precaution at feeding time with adult supervision until the food is all gone. Keep toddlers at a safe distance.
