The analysis of each city begins on the following page.

After the name of the city, the latitude and longitude of the city is given. For the benefit of astrologers, the "relocated Ascendant and Midheaven" are also given. You can ignore all of this information; what is really important, of course, is the analysis of the city.

Here are some suggestions on how to get the most out of this report: Whenever you plan a vacation, are going to visit friends, on a business trip, or planning on a place to relocate to, you can refer to the analysis given in this report. Remember also to use all of the information available to you when analyzing a given place. For example, if you hate cold weather, you probably will not enjoy moving to a city near the Arctic Circle! However, you will find that if the astrological influences are positive, there will be some nice experiences to help you through the long winters. In addition to weather, carefully consider the culture, the kind of people, and other issues that may be important to you (crime rate, quality of schools, natural environment, etc). Most places offer a rich variety of possibilities. For example, two people (whom I will call Jack and Jill) may be very similar but Jack may find that he loves Chicago and lots of opportunities come his way, and Jill may have just the opposite experience. The astrological influences for Jack and Jill are probably very different. Also, keep in mind that a good attitude and skillful use of the energies available to you enable you to transform the most difficult challenges into a creative solution rather than become a frustrating and limiting situation. It is up to you to find creative solutions to the challenges that you face.

Note that an accurate birth time is required for this report to be accurate. Also, you may wonder if an astrological influence will still be in effect if you are 15 miles or 30 miles from any given city. The answer is yes. The influences described in this report extend in across a region that varies from about 100 miles to 350 miles. It is safe to say that the influence will extend 50 miles (sometimes more) from the city. An astrologer can help you pinpoint areas of strongest influence as well as analyze additional factors at work in a given location.

Finally, you may be asking yourself, "I wonder if this report really works?". We are convinced that it does. The astrological techniques used in this report have been used by hundreds of astrologers on thousands of people and there is very strong evidence that the techniques do work. Still, astrology is extremely controversial and the techniques used here have not been proven scientifically so we cannot guarantee that the methods do work.

1: **BERLIN, GERMANY** 52N30 13E22 20 LE 41 5 TA 33

Asc Quincunx Saturn (Orb:0 Deg 55 Min)

In this area you will find a lack of warmth and friendliness to others and especially relationships which will cause problems as well. Your patterns of behavior can cause people to keep their distance from you due to your negative outlook on life. While you are here your self worth and confidence may suffer, feeling unloved even when around others. It will be difficult to find a marriage partner to put up with your negativity unless they are capable of rendering continuous emotional support for you. Difficult or cold relationships are offset by keeping busy through hard work. Adversity that finds you here is a positive outlet for you to grow as a person.

Demands placed on others can be heavy through your faultfinding and perfectionist attitude. People do fail in life, remember this when dealing with others here. Depression can find you very easily here and insecurities about life will cause you to retreat into your own little world, allowing no one else to enter. You will feel a strong need to keep people at a distance from you at this location. When you are around people in social situations, you will feel very uncomfortable, even in a room full of people. Your energy and vitality will be lower while at this location, and more time will be needed for rest. There will be additional responsibilities to care for the welfare of others, and legal difficulties can arise for you to deal with as well.

MC=Mercury/Pluto (Orb:0 Deg 50 Min)

Here you will be a force to be reckoned with, and a real powerful influence on others, just be careful of how much force you use. There will be an overwhelming desire to influence peoples thinking and you can do so through your heightened abilities for writing and speaking. There is a danger of getting into power struggles through the use of the mind. This is a wonderful location to do some very serious research or investigate something that lies just beyond your reach.

In extreme cases you can use manipulation or destruction as a tool to gain control over another person and this should be avoided at all cost, because power can be your own downfall as well. Be careful of using people for your own purposes here and abandoning them after they have served your purpose, or taking revenge on people who have done you wrong.

You can be unmerciful in your desire to pursue information and can become obsessed with telling on people who gossip, or tell secrets. You would make an excellent interrogator or cross examiner however.

Interactions with people will be far from lighthearted and they can become very intense and probing to say the least. People can have a very dramatic and positive effect on your thinking here as well by making you take a long, hard look at yourself.

MC Opposition Mars (Orb:3 Deg 02 Min)

While you are around this location you will find that more confrontations will occur with others and the home front will be void of harmony. Your over aggressive nature and combative attitude will fall in disfavor with people in authority over you. You can be very impulsive,

compulsive and rash in behavior and can experience accidents in and around the home.

While you are here you will need an increase of "your own space" so that you can do your own thing, and explore the world around you. Should the need come up, you will be only too willing to rough it to bring some adventure into your life. There can be an overbearing and harsh manner around the domestic front in this location and you may feel you have to rule others with a fist of iron, often refusing to compromise the slightest.

This is an excellent place for home repairs or doing physical work, because you need to replace the old, with the new. There will also be a constant need to better yourself in all areas here. There can also be arguments over what belongs to whom, and family matters will be somewhat explosive to say the least. Remember that if you experience more accidents than usual here, the universe may be trying to tell you to lighten up, or you'll get hurt if you don't.

MC SemiSquare Saturn (Orb:1 Deg 04 Min)

If you choose to live in this location, then you will find that in time your domestic life becomes quite "cool" and formal in structure. There will be a great need to be the boss of any situation and can demand admiration and appreciation from everyone around you. If you live here with your parents you will feel a real distancing in the relationship take place and every day there seems to be more and more problems that arise to contend with.

Your childhood in this location was probably filled with frustrations and unhappiness finding that you had to be in a subordinate position to your parents and live up to their expectations and standards. If you stay in this location after your childhood, your obligations to people in your past can become like your own prison that never allows room for parole, but at the same time allows a strong base from which to operate. Matters of investing and real estate should be approached very carefully, and can provide long term gain with hard work and the responsibilities to go along with it.

In this location there can be a real conflict in professional matters or domestic affairs and you can easily feel isolated, unloved and lonely. You will need a lot of support emotionally from others along with encouragement to see you through the low periods. You can easily become a recluse here shunning contacts with others. Your new values in this location will be an orderly existence along with neatness and organization. Any items that you purchase here will be for practical reasons leaving little room for any small luxuries at all.

Asc=Saturn/Neptune (Orb:1 Deg 35 Min)

You may feel like you are entirely alone in the world here, and you may be correct. You may feel limited, bound and restrained in your activities, and there may be a trivial illness to deal with from time to time. There can be some confusion for you here as well, trying to decide what is reality and what is fantasy. Here is a wonderful place for some self discipline, while denying the

physical sides of life to do some very important work "internally". You can bring your dreams into reality in this location.

If you have been ill and looking for a place to recuperate in solitude, this can be the place to do just that. You may notice some strange changes in mood that you will have to contend with, as well as some very special or disrupting psychic experiences. Any spiritual aspirations will work out quite well here. You can also find success in doing some sort of research and in the process can uncover some startling information or acts of fraud.

Your over aggressive nature and combative attitude will fall in disfavor with people in authority over you. You can be very impulsive, compulsive and rash in behavior and can experience accidents in and around the home.

While you are here you will need an increase of "your own space" so that you can do your own thing, and explore the world around you. Should the need come up, you will be only too willing to rough it to bring some adventure into your life. There can be an overbearing and harsh manner around the domestic front in this location and you may feel you have to rule others with a fist of iron, often refusing to compromise the slightest.

This is an excellent place for home repairs or doing physical work, because you need to replace the old, with the new. There will also be a constant need to better yourself in all areas here. There can also be arguments over what belongs to whom, and family matters will be somewhat explosive to say the least. Remember that if you experience more accidents than usual here, the universe may be trying to tell you to lighten up, or you'll get hurt if you don't.

Asc Sextile Mercury (Orb:0 Deg 26 Min)

While you are in this location you will try to find any outlet for your curiosity. The mind is quick, alive and alert, and the phone may never stop ringing in your desire to communicate with others. This is a wonderful place to sign or formulate agreements and contracts as well. Matters of health, dieting, writing, self improvement or self expression have their place here. The people that you associate with will be people that you have something in common with intellectually.

Perhaps you can make some additional money through a special hobby that the public finds attractive? Any sport, game or amusement that challenges and satisfies the intellect will be of great importance to you while you are here. Speaking and journalism can be an avenue to communicate and influence others around you in some important issues, or you can attend college here to increase your knowledge or education. This is a very favorable place to start a

new business as well. If you are looking for the place to get your point across to others you have found it. Sales, travel and communications in business are favored as well.

MC=Venus/Jupiter (Orb:0 Deg 30 Min)

In this area there will be good times and good feelings towards everyone around you, and you will be much happier for no apparent reason. Your compassionate, humanitarian and charitable nature will be alive and well, and relationships and good fortune are sure to find you.

Artistic and creative abilities are heightened and a more sociable and hospitable nature come to the foreground. There is a danger of going overboard on luxuries, and spending beyond your means to keep up with the neighbors.

There is a greater appreciation for the world around you, and your gentle manners will be evident as well. This location can easily increase your finances and attempts at speculation are favored. Your disposition becomes much more mellow and laid back here and you may decide to try your hand at the sophisticated life. One danger though is being envious of what other people have and the jealousy that accompanies it.

Overindulgences can take their toll on your physical health, so be careful of what you put into your body here, and you may also find that you become lazy and inactive becoming a little chunky in the process.

Asc Trine Moon (Orb:2 Deg 08 Min)

While you are in this area you can expect a free flow of emotions, and be appreciated by the people of this location. Social life agrees with you, and you will make every attempt to be the perfect host while showering your guests with warmth, and the same in return for you. You will find that you are very comfortable with people from all walks of life, and all kinds of people. Domestic relations are apt to be very harmonious and loving, and you will experience a strong need to belong where others are concerned, and will not want to be alone.

Creativity comes alive in this location because your imagination is working full time to produce wonderful results providing you use them. Your positive attitude is contagious, and brings benefits and support from others in times of need. You will find that women will become a large part of your life while here, and you can be easily influenced by their presence. You will be able to go with the flow of life much easier here rather than having to buck the system. Be careful of being too passive, and taken advantage of by people who recognize this quality in you.

3: **KIEV, KIJEV, UKRAINE** 50N26 30E31 1 VI 47 22 TA 48

MC Trine Neptune (Orb:0 Deg 08 Min)

Even with the trine that offers ease of life in your environment, you must be cautious of any kind of scandals in this location, as they can easily find you. You will find that you will need very few material possessions and you can be considered a non material person. Here you will want to blend in with your environment and become as invisible as possible, and as free as possible.

Your emotional and spiritual nature will be all that seem to matter to you, and no matter what the circumstances are, you will gladly give or do for another until there is nothing left. For this reason you will be labeled very unselfish and an easy target for people to "use you".

It will be very difficult to be around others as you become more introverted and shy here, choosing to remain close to home. Because of your extremely sensitive nature, it will not be hard to understand that you can be very easily hurt by others. You would gladly make any sort of sacrifice for others in this location, and can be considered to be a real faithful friend.

In your business or professional life you can do very well because you can always sense what other people want or need, and will be able to demonstrate a knack for reading peoples minds.

You can easily spend most of your time in the deeply spiritual, religious or supernatural realms. If you ever thought about devoting your time to the priesthood, living in a monastery or developing your true spiritual nature, this is the place. If you are at all artistic, this is the place to see some true masterpieces come to life. This is a truly magical and mystical place for you.

True humanitarian acts of kindness or taking care of people who are ill or disadvantaged in some way can be performed quite successfully at this location. While visiting or living here you can experience a complete change or career or change directions in your life. Your actions will seem to be guided by a much higher source, and you will respond to people in totally intuitive or telepathic ways.

Relationships will not fare to well in this location unless you find someone who will not take advantage of your good nature, and understands where you are coming from spiritually.

MC Trine Venus (Orb:0 Deg 50 Min)

While in this location you have the natural abilities to be very charming to others, displaying tact and diplomacy and perhaps take the lead for others to follow. While you are here you will want to spend as much time with others as possible, and the idea of being alone even part of the time will be very unappealing.

You will find that you can acquire things of beauty to surround yourself with quite easily, and find the domestic scene highly pleasurable as you use any and all excuses to throw a party or celebrate any event, no matter how trivial. You will go out of your way to cooperate and promote harmony, and people will see you as a real supporter for their efforts, bringing good feelings to

you in the process.

In this location you will find that you can handle money matters more effectively and in matters of the heart and marriage you will be blessed with happy times. The only negative side to matters of the heart is that you may have too many objects of desire to choose from.

Your creative and artistic talents will surely come alive in this area, and you will have a stronger drive and appreciation for music as well. Expect your popularity to soar while you are here, even if it is just for a visit or vacation. There will be a strong need for friendship from people around you, and an added need for harmony in your life.

Cooperation wins the day in family matters and professional endeavors in this location. Social activities in regard to professional and family are highly favorable, and if you can combine the two, so much the better. This is a favorable place to make a purchase or two on art or luxury items. People in authority will be more than willing to see things your way, granting favors to you much more easily than in other locations.

Asc Sextile Mars (Orb:0 Deg 44 Min)

When you reside in this location you can expect to be strong willed, daring and courageous in ways you might not have imagined before. There will be a strong ability to assume command or lead others while being very independent at the same time. You will need an increased freedom to make your own path through life and will work well with others in your environment. Any projects that you start here will be done so with a great deal of energy, and you will put every bit of yourself into accomplishing what you start because of your endurance and vitality that accompanies this location.

There will be an increase in physical activities here, and sports can play a big part in this. There is also an increase in sexual energy, and sexual encounters are possible. Because of your positive outlook on life in this location, you will infect others with your enthusiasm. In this location there will be an increased ambition to be successful in life and a greater need to be continually active. In your pursuit to be successful in romance and business, don't step on the little people in the process, instead work in cooperation with others for the best chance of success. You will look for any reason to keep your competitive spirit alive while at this location.

MC=Sun/Uranus (Orb:0 Deg 28 Min)

In this area you can expect conditions to occur very quickly and without warning, either positive or negative. You will notice an increase in moodiness and become high strung, and how you appear to others will be more important. There will be an air of restlessness about you, and you will likely suffer from the dissatisfaction that rules and regulations can put on you.

This is really a very unstable environment bringing some very "odd" events into your life, and

you will be much more bold in your expression needing to experiment with life and what it has to offer.

Creativity and inventive endeavors get a boost however, and you can produce some very positive results along these lines here. Your humanitarian and friendly nature comes alive, and there will be a greater enjoyment being around people but with certain limitations imposed by you. You will however enjoy grabbing all of the attention you can for yourself while keeping free of the mold that shapes others. Because of this independent nature, you might be prone to more stress than at other locations.

There can be a greater interest in astrological theory or new age subjects in this location.

MC=Venus/Neptune (Orb:0 Deg 29 Min)

While in this location you will notice that your creative and artistic abilities get a boost with an increased imagination that can send you into new areas of music, writing, poetry and painting. You can easily get lost in the ideal of love, while losing the reality of it in the process. This can be a very magical and romantic place for you, but remember to come back to "earth" for a clear view of things. Romance and fantasies are strongly featured in this location.

There can also be a greater compassion and love for people who are disadvantaged or worse off than you are as well. You will also feel the need to be somewhat evasive and illusive to others for reasons of your own device and there is a danger of becoming very lazy or getting yourself involved in relationships for pure sexual gratification.

There can also be dangers of deceptions in romance or neglecting your partners needs for physical pleasure. There can be a great reaction to drugs and alcohol here, and plenty of water should be included in your diet to keep the kidneys in good order.

Asc=Moon/Neptune (Orb:0 Deg 43 Min)

While you are in this location you can expect your perceptive, intuitive and psychic sensitivity to become much stronger and accurate. Dreams will increase in intensity and they can become predictive in themselves. One danger is letting others take advantage of your good nature, or being too inactive, avoiding responsibilities. This is a wonderful place to experience a wonderful "fantasy" or two though!

You can become very careless in your responsibilities to any people, animals or possessions left in your charge. Your imagination becomes more acute here, and if you put it to work, you can inspire some very creative paintings, art work or music. Your thinking is sure to turn to the "mystical" or "spiritual" realms here.

You will become very sensitive to any form of drug whether prescription or not as well as dust

and pollen. There can also be some female problems as well.

MC Sextile Saturn (Orb:1 Deg 11 Min)

Whether you visit or live in this area, you will begin to see that any goals that you have set for yourself are much easier to reach. You will work very hard for what you want, and not be concerned about how many hours a day it takes to realize those goals. Your rise to the top will not be an overnight success, but one that makes slow and steady progress until what you desire manifests itself.

Your reliability and dependability will be an asset for any boss, but you must be careful not to be a workaholic. You will carefully organize your life and your tasks here and you love the orderly nature of the daily grind, but will not take changes in routines lightly.

Your friends and associates will be serious and mature, just as yourself, and you will have little time for people who are not there for the same purpose as you are. You will find that you work in a slow and determined manner and negatively you will find only a handful of people that match your expectations.

While you are here you will prefer to remain in the background, letting others be the center of attention. For you life is not a competition, and you aren't trying to be Mr. Popularity. Instead your aspirations are quite serious, your intentions are honest, and your responsibilities always come first. Your working conditions in most cases will require that you work alone, as you won't want to be with others. In business matters remember to do business with well established firms instead of dealing with new companies and untried methods.

MC=Sun/Neptune (Orb:2 Deg 24 Min)

This is an unfortunate placement for fitting in with others because in this location there will be a greater need for seclusion and being by yourself. Spiritually it can be a very motivational place for higher consciousness, but deceptions, clouded thoughts and confusion as well. You will go out of your way to project to people only what you want them to see, and not necessarily who you really are. A great place though for a daydream and the creative process.

You can easily be deceived by your ideas of your self importance which by the way can easily be an illusion unto itself. You can also deceive others with your own motives here as well, avoiding any responsibilities in the process.

There will be a decrease in willpower to do anything, and a possible air of escapism through drugs or alcohol, feeling a lack of will to continue.

MC=Venus/Uranus (Orb:2 Deg 25 Min)

In this location there can be some sudden and unstable relationships. Your desire for freedom and independence will be high and your creative abilities will take an unusual turn into eccentric. Romantic feelings are heightened and you can easily become involved with someone very quickly. Relationships that are already together can become alive and well again and enjoy a new sense of finding each other.

You may come across to others with an air of sexy behavior and your basic characteristics will be tinged with artistic qualities. You will also be more impersonal or unattached in your relationships as well.

If it is an unpredictable lifestyle you are looking for, then this is the place. Expect some antisocial behavior and disturbed conditions to enter your life here.

The child in all of us comes alive through mechanical or electronic toys that are in evidence everywhere. You can notice some changes or difficulties taking place in the throat area as well.

4: MEXICO CITY, MEXICO 19N24 99W09 13 AR 44 9 CP 52

Asc Opposition Mercury (Orb:0 Deg 54 Min)

While you are in this location, expect communications to increase with the public, in contracts and negotiations. Understand that above all other considerations, the desire to communicate with others will outweigh any other factors. Should you have to consult an attorney or doctor, this is an excellent area to choose one from. In this area you will not have any problem in speaking your mind, or getting things off your chest. You will notice a constant need for new data input and look for ways to stimulate the mind. You may even find yourself competing with others "intellectually" and experience an unconscious desire to dominate conversations. If you are looking for a place where you can debate issues, this is the place, along with the arguments that can ensue. You can easily influence people while you are in this area.

You will connect with or associate with people you have a lot in common with intellectually here. People that are into sales, public relations, the law, teaching, education, consulting or counseling others and politics will find this area very suitable.

The passion that accompanies some relationships will not be a consideration here, and relationships can suffer setbacks because of this. You will find that emotional pressures and arguments make you very uncomfortable, and you will be sure to keep your distance from them. Another area of conflict in relationships will be your need for freedom, and a strong need to wander around with nothing special in mind. Relationships will succeed if they are more intellectually compatible, staying impersonal.

Asc Conj Moon (Orb:1 Deg 40 Min)

While you are at this location you will find your heart opening to everyone around you, finding any occasion a time for a party or an excuse to entertain for any reason. You will find that you love to be around groups of people at this location, and people will be very accommodating to you as well. All things considered, this is a wonderful place to receive the love and support from others that you may not receive elsewhere.

Your intuition and insight at this location are very much on target and you will enjoy an increased appreciation for music, the study or theory of music or take up an instrument to play. You will find a fondness for good foods which can get out of control at times, and a greater appreciation for people and animals. When you are around people, you will have a greater insight into their moods, just by being around them. This includes matters of the heart as well. Because your emotions are heightened, there can be times of increased abilities to shed a tear or two, even if you have never experienced this before.

You will find that dealings with women on a daily basis increase, or find comfort having more women around you. On a day to day basis you will find yourself getting involved in the finer details of life, while staying very active. Your life will become much more passive, but this can be a negative quality if you have to make firm decisions rather than staying in the background to please others rather than yourself.

In this location, you may find the lost child in you in attendance, and your feelings and emotions dominate what you do rather than your intellect. There will be a stronger need for security around the home and work place, a greater need to fit in or belong with others, and strong needs for emotional nurturing and satisfaction. You will feel very comfortable here as time passes, but can become occupied and possessed with family relationships and personal needs that dictate your actions, for better or worse, that does not allow room for growth or the ability to make positive changes. If you are moving back to an area which you lived a long time ago, people will put you back into the same "mold" of who you used to be, never being able to view you are you really are at this time.

Asc Sesquiquadrate Pluto (Orb:0 Deg 37 Min)

While you are in this location it will be very difficult for you to be open to others or direct in your approach, instead finding it necessary to be sneaky, secretive or underhanded. You will be very ambitious towards your goals and considered a very intense person who does not compromise and is extremely stubborn. You are very aggressive, antisocial, unwilling to give in or listen to what others have to say. You can gain control of others through the use of violent tactics, but those people you wish to control can place you in a dangerous position. The rewards for such behavior can be returned through thefts and burglaries. Conflicts over possessions and financial matters can arise, and avoid the temptation to hit the till for money that is not yours, as you will get caught. If you are looking for a place where you can become a dictator, then this is the place for you. Here you bring out an overbearing attitude and rule others through intimidation, and you can be seen as somewhat crude, cruel or brutal a

You can experience some drastic and extreme changes in your life in this location. The need for sexual satisfaction and constant activity is drastically increased along with the need for physical activity. You may also notice that secrets you may have been hiding as well as motives and activities are brought out into the open, whether you wanted them out or not, whether good or bad. There can be some sort of crisis in your life that occurs at this location and some conditions will come to an end. One thing is for sure, circumstances beyond your control will disturb your life and it will seem that destiny or karmic conditions have been unleashed for you to deal with. Depending on your own individual karma, this can either be a very positive place for you, or extremely negative.

Asc=Venus/Mars (Orb:0 Deg 40 Min)

While you are here love and affection will come easily for you, with no restraints or conditions placed on you. Relationships will be very passionate and highly sexual, and this will prove to be a wonderful place for creative inspiration and artistic masterpieces to find their inception. Should you be on the prowl and looking for some romance, this is the location to have it find you!.

Jealousy in relationships also has its home here, as well as the aggressive search for companionship. There will also be a deeper appreciation for the beauty in all people, and while you are here you can be more reckless and hasty, looking for a lot of adventure. You can be quite careless in your choice of companions however, causing regrets at a later date.

MC Square Moon (Orb:2 Deg 13 Min)

You will find that while you are in this area it is an excellent place to put down roots, a place where you can truly belong. You will notice that your emotions and feelings run clear to the bone and because of this your need for isolation, seclusion and privacy will be stronger than at other places. If you are a creative person then this will be an ideal location because your imagination is in "over drive". The down side to this energy is the imagining of good and bad influences, rather than stable input.

Your hunches will be right on target and your psychic abilities will be very strong as well. Because of the somewhat "unsettled" emotional state, you will become more fidgety than normal, with a constant need to be on the move or make changes in the home.

Professional matters will not work out well here, because your mind is on emotional matters and expression (unless that is your line of work!). Since you will want to stay close to the home environment, perhaps you will consider putting an office in your home so you can be close to others. You may find that people come to you for advice and your compassionate attitude will draw people to you, and you can take on the role of an authority figure for others or become involved in taking care of others, seeing to their welfare and well being. You will be extremely

drawn, attracted and bound to others emotionally in this location and should you have to leave, you will be sure to "hurry" home to people you love and care about. This place can be your sanctuary, a place where you will feel safe.

MC=Mars/Saturn (Orb:2 Deg 12 Min)

Advancement will come only through great efforts and obstacles in this location, and your health can be somewhat sensitive as well. Your actions and anger will be more inhibited, and frustrations will be evident. Your energies will be focused on hard work with very little else on your mind. Work will be done silently and alone rather than including others, so if you are into or need a very disciplined lifestyle, then this is the place for you.

You can expect some hard reactions from people here, at the same time feeling a real restlessness. This position is wonderful for working on the same monotonous work day after day after day if that is what you want to do.

This is also a favorable place if you need to be more disciplined in your physical training or sports activities.

5: **COLUMBUS, OHIO** 39N57'40" 82W59'56" 12 TA 59 24 CP 57

MC Conj Uranus (Orb:1 Deg 51 Min)

While you are at this location you will find an overwhelming need to do things your own way and will resist the need to fit into the mold of life that everyone fits into very nicely.
